

You Be the Judge

Real Light On Russia.

So many conflicting reports as to conditions in Soviet Russia have been given to the public in recent years and it has been so difficult to distinguish in such reports what is pure propaganda either for or against the political and economic systems now prevailing in that vast country, that people have developed the habit of shrugging their shoulders when Russia is mentioned and refusing to place reliance in much that is told them. It was, therefore, with unusual interest that delegates to the World's Grain Conference at Regina listened to the first hand knowledge which was brought to them by E. J. Stürnman, consulting engineer of Brooklyn, Iowa, who was employed by the Soviet Government for several years in connection with its gigantic plans for the mechanization of agriculture as part of its famous five-year plan.

Mr. Stürnman had no political axe to grind, he had no propaganda to spread. He merely told an unvarnished story to the assembled world grain experts of the situation as he personally knew it to exist in Russia. And inasmuch as agricultural development in Russia cannot but have a direct effect on agriculture in Western Canada, it is of interest and value to have Mr. Stürnman's first-hand information.

Quoting Litvinoff, Soviet Commissioner of Foreign Relations, as stating at Geneva last June that "unemployment, wage cuts, and strikes were unknown in the land of the Soviet," Mr. Stürnman commented that they were impossible in a country "where bread cranks are granted only to the obedient worker." Control of the country's food supply precluded strikes, he said. There is no unemployment because the country's census takes no account of any but the workers—the unfortunates do not officially exist. There is no necessity for wage cuts for the money the government pays its workers has no value outside Russia. It is paper money and will not be honored for one nickel on a purchase abroad, or on a purchase of imported goods within Russia, Mr. Stürnman explained.

Nevertheless there is wage-cutting in a sense, Mr. Stürnman giving the following example: The Soviet Government floats government loans each year, requiring each worker to turn back a part of his wages for bonds. In a fair job it amounts to a month's wages, which he could use for food. The worker feels this keenly but he does not complain.

Russian workers, he continued, by report always positively stricken, as a whole today have the worst living conditions of any of the workers of their neighboring countries in Europe. The Russian could meet conditions in his plodding peasant life, but uprooted and the reserve supplies taken from him, he has no way to cope with winter's cold and the fearful winter hunger. The food supply available to Russian workers has fallen off in quantity steadily since 1928. Clothing, bedding and shoe supply are reduced to almost nothing. Housing has become more and more congested in the industrial and agricultural centres promoted by the Soviet.

Describing the system of farming, Mr. Stürnman said farmers lived in villages going out to farm their own individual strips of land. Throwing the land into collective farms was only to obliterate the dividing lines by farming them in one unit. These collective farms were established before the State farms. The State farms were designed as models in each section for collectives and communes. Exorbitant taxes, no right to purchase, the possibility of fine as an enemy of the plan, and the promise of machinery through the government on their collective quickly brought 90 per cent. of the farmers into collectives in the great drives of 1930 and 1931.

A Soviet State farm is never an independent farm in the western world sense. It remains only the link in a vast network of farms, with Moscow as the centre from which emanates all plans, orders and supplies. The man directing these farms is not often an agriculturist nor even an engineer. The entire crop is wheat.

State farms are under the direction of a resident farm superintendent. He has several assistants, all with offices and residences in the main settlements. There are directors of the institute, the experimental station, and of grain production. Etc., etc. These have further assistants, the number ever growing without end. All were specialists and did no manual labor. The administrative class grows larger and the working class relatively smaller. More and more offices are required and more desks to put in them. The working class gains recruits from only the more remote districts and in the seasons of intensive work the women are brought in as "pinch hitters." Now, in 1933, it has become necessary to drive the office class back to the farm.

Describing how everything is centralized in Moscow, how even a practical director of a State farm had to wait for orders to begin an operation on his farm that he knew was long overdue, but which, although controlling perhaps thousands of workers, he had no right to start without definite orders from Moscow, Mr. Stürnman said:

"One question looms large in looking over the situation in this modern dictatorship. How did the government get control over a vast country and over the destinies of a conglomerate people? The answer is simple; She got control of the food supply. Why should any people's government need to hold its people by such a strong leash? Because the government is of the minority party, representing five to seven per cent. of the entire population. Then one wonders why do not more Russians join the Communist party and share the privileges which attend the 'party membership' in Russia today? The answer is that it is made very difficult for a Russian to join the Party, and of late only the children of Communists are allowed to join."

Everything, down to the smallest detail, is dictated from Moscow, and control maintained through a collection of fines, taxes and shares of crop. There is never any lessening of centralization by any such name in official circles. It is always neatly explained as an increasing of power in some particular field. This brings us to a very important consideration in a government dominated by five to seven per cent. of the population and it is this, Party Men must be kept in all the major agricultural posts, regardless of ability among "comrades" because in these officials lies the power to control food, production, farming methods, all expenditure, education of the worker and his family. Thus it is the concern of the government in appointing men to these chief posts that they are "safe" and "good party men." That is the reason why Communists insist that "politics and farm engineering cannot be separated."

Weakening Diarrhoea Dangerous Dysentery

Diarrhoea and Dysentery do not need to run for any length of time until the whole system is weakened and debilitated. Few other diseases so quickly undermine the strength and bring about a condition of prostration and often collapse.

Dr. Fowler's Extract of Wild Strawberry is not only prompt and effective in checking the looseness of the bowels, but at the same time it strengthens, stimulates and braces up the system.

Never be without a bottle of Dr. Fowler's. Always be prepared in case of emergency. Manufactured only by The F. Milburn Co., Limited, Toronto, Ont.

Grain Deterioration

Saskatchewan Research Workers Develop Method For Treating Damp Wheat

The practical value of the World's Grain Exhibition and Conference is revealed again in addresses contributed to discussion at the conference side of this mammoth gathering by Dr. R. K. Larmour, J. S. Clayton, and C. Le Wrenshall, of the laboratories of the University of Saskatchewan. These men have been experimenting with wet wheat in order to eliminate the danger of heat and consequent deterioration of grain before it reaches the head of the mill.

Undue rain has been a common life of prairie wheat, and yet on occasions it has attracted rainy spells or threat to cut grain. The Saskatchewan scientists mentioned developed a vapor called tolouene, that is held to be not inflammable in the slightest and that carries no danger to the quality of grain, but that yet effectively prevents damage from heat, mustiness and fungi in the grain consequent upon wet weather.

This would seem to represent a distinct advance in agricultural science, and that Saskatchewan men have been able to reproduce this treatment and impart it to the World's Grain Conference will be a matter of satisfaction to all citizens of this province. —Regina Leader-Post.

Maxims Of His Majesty

Rules For Life Conduct In Workroom At Buckingham Palace

An English journal in its current issue gives favorite quotations of celebrated people and shows quite clearly how many men and women whose names and deeds are known through the world fortify their lives by recalling great sayings and sentiments. This list of great people is headed by His Majesty King George and his list of quotations is worthy of being reproduced for its own sake as well as for the eminence of the one who uses it. These sentiments that hang in his workroom at Buckingham Palace read:

Teach me to be obedient to the rules of the game.
Teach me to distinguish between sentiment and sentimentality, admiring the one and despising the other.
Teach me neither to prefer nor to receive cheap praise.

If I am called upon to suffer, let me be like a well-bred beast that goes away to suffer in silence.
Teach me to win if I may; if I may not, teach me to lose.
Teach me neither to cry for the moon, nor to cry over spilled milk.

There is a fine philosophy of life in these various maxims. Their reading enables one to understand better the wisdom and restraint and good sense and understanding usefulness of King George during his reign. Humble folk fighting life's daily battles may find some inspiration in these maxims. They are here given to that end. —Regina Leader-Post.

Round Up Criminals

International Organization Formed To Conduct Drive On Crooks

Police of several nations organized recently in Chicago the "international world police" to chase the criminal from his haunts over the globe.

The new international organization was formed at a meeting of Canadian, American and European police officials attending conferences sponsored by Baron Collier, special deputy police commissioner of New York, the international police conference, and the international association of chiefs of police. Winnipeg was represented by Chief Chris H. Newton.

Prefer Native Workers

Many thousand foreign residents in Chile are affected by a new law stipulating that 95 per cent. of all factory and office workers must be of Chilean nationality. Many will have to leave the country to seek work elsewhere. If the foreigners have been in the country 10 years, or is married to a Chilean, he will be counted as a Chilean, and he will be exempt if he is performing duties for which a native is unsuitable.

Club Will Be Exclusive

Aviators who have crossed the north Atlantic alone are going to form a club. Plans for the organization were discussed by Amelia Earhart Putnam and her house guest, Captain James A. Molison. They broached the idea to Wiley Post, world solo flyer, who expressed approval. Col. Charles A. Lindbergh and Jimmie Mattern, the other eligibles, also will be invited to join.

London haters recently gave to charity 2,000 old hats left by customers.

SAVE THE POKER HANDS

Recipes For This Week

(By Betty Barclay)

STUFFED TOMATO SURPRISE

(Serves 6)

- 6 medium size tomatoes.
- 1 tablespoon gelatine.
- 2 tablespoons cold water.
- ½ cup lemon juice.
- ½ cup boiling water.
- ¼ cup orange juice.
- ½ cup shrimps.
- ½ cup diced celery.
- Mayonnaise.

Mint sprigs (or stuffed olives or pimientos).

Lettuce.

Peel tomatoes and remove centers. Invert and chill. Soak gelatine in cold water 5 minutes. Add boiling water. Stir well. Add lemon and orange juice. Pour into a pan of the right size to make a gelatine layer ¼ to ½ inch thick. Chill until jelly is solid. Cut in cubes. Half fill tomato shells with shrimps and celery blended with mayonnaise. Then pile shells as full as possible with lemon jelly cubes. Garnish with mayonnaise, which may be colored green with spinach juice or vegetable coloring if desired. Decorate with mint sprigs, stuffed olive slices or pimientos. Serve very cold in lettuce cups.

BRAN DELIGHTS

- 1½ cups sifted flour.
- 1½ teaspoons combination baking powder.
- 1½ teaspoon salt.
- 1½ tablespoons grated orange rind.
- ½ cup butter or other shortening.
- 1 cup sugar.
- 1 egg, well beaten.
- 1 tablespoon milk.
- 1 tablespoon orange juice.
- 1½ cups bran flakes with other parts of wheat.

Sift flour once, measure, add baking powder and salt, and sift again. Add orange rind to butter and cream thoroughly. Add sugar gradually and cream together until light and fluffy. Add egg, milk, and orange juice, beating well. Add flour; then add flakes and mix thoroughly. Chill until firm enough to roll. Roll ¼ inch thick on slightly floured board. Cut in desired shapes and bake on ungreased baking sheet in hot oven (425 degrees Fahrenheit) 5 to 10 minutes. Makes 4 dozen cookies.

Hourly Nursing Service

New Department In Nursing Is Established At Edmonton

To meet prevalent conditions, and following along lines of nursing organizations in other cities, the Edmonton Graduate Nurses' Association has organized an hourly nursing service in connection with the graduate nurses' registry.

Hourly nursing means that patients may secure skilled nursing care in the home for stated periods as they find necessary to comply with medical care. This form of nursing is similar to visiting nursing, except that hourly nursing is paid for on a time basis rather than on a visit basis.

The Graduate Nurses' Association is anxious to establish nursing and is fortunate in establishing it under the graduate nurses' registry. The patient, nurse and community are in a position to benefit from an organized nursing service. This nursing service, in whatever capacity it is administered, will be with the co-operation of the medical profession.

Commodity prices in the Netherlands are rising.

Vimy Ridge Memorial

Undertaking Which Is Not Yet Completed, Is Massive In Conception

The memorial on Vimy Ridge, which four Canadian divisions and the Thirtieth British Brigade, West Kent and Scots stormed in April, 1917, is not yet completed fifteen years after the Armistice. But it is an undertaking massive in conception, on 240 acres 200 feet above the Douai Plain, and designed to be worthy of a victory of which Sir Douglas Haig said: "The capture of the renowned Vimy Ridge is an achievement of the highest order and of which Canada may well be proud."

It was fitting that the sculptor should be a Canadian, Walter S. Allward, who won an award that was open to the British Empire. Since 1925 he has been engaged on the work in a London studio. "All the time," he says, "I have sought to avoid any semblance of drum-beating. Canada mourns her dead in the way I have endeavored to show in the Spirit which stands with drooped head on the wall, brooding over the plain on which her sons fell. Sorrow but not vainglory is there." Blocks of from twelve to twenty tons were required, and they were found in an old Roman quarry in Yugoslavia, from which the stone to build the Palace of Diocletian in Spalato in the third century was taken.

The common cause of France and Canada is to be represented by twin pylons 138 feet high. Below them will be seen the Spirit of Sacrifice in twenty heroic figures grouped at the ends of a wall 237 feet long, the base of the memorial. Surmounting the pylons will appear in relief Peace, Justice, Truth and Knowledge. The design calls for the covering of mouths of guns along the base by olive branches and laurel. The memorial should be ready for dedication on Dominion Day next year. The approaches will be by avenues of pines grown in Canada and France.

In F. A. McKenzie's "Canada's Day of Glory" may be read the breathless story of the capture of Vimy Ridge, a Canadian correspondent, he does justice to the part the men of Kent and Scotland played in that immortal feat of arms. The dedication would not be adequate without the presence of the commander of the troops engaged, Sir Julian Byng, Governor-General of Canada from 1921 to 1926.—New York Times.

Canadian Legion At Tokio

Structure Nearly Completed and Will Be Soon Ready For Occupancy

It is understood that work on the Canadian legion in Tokio is proceeding rapidly and that the structure will shortly be ready for the occupancy of Hon. Herbert Marier, Canadian minister to Japan. While no official statement has been given out by the government, it is learned that Mr. Marier, on the occasion of his last visit to Ottawa, urged upon the government the advisability of going ahead with the legion construction so that advantage might be taken of the low costs of labor and materials.

The only opposition to the scheme was the scarcity of money for embarking on such a project which could not be described as absolutely essential. Long term financing was arranged, however, and the work has been in progress some time. It is expected a statement will be issued by the government shortly.

Coffee exports from Haiti this year have exceeded all expectations.

A Genius For Organizing

Lord Of Thousand Ships Was Millionaire At Thirty-Nine

One of the reasons why the "sun never sets on the British flag" was the organizing genius of Sir John Ellerman, son of a German bookkeeper. Sir John died recently in France, but in a hundred ports from Southampton to Sydney, his flag is flying on the ships which keep Britain first on the seas.

It was quite appropriate that Ellerman, the ship owner, should be the wealthiest man in Britain, whose life and prosperity depend upon sea-borne commerce. A few years back when many values had not flown so far as they have today, Sir John's wealth was estimated at from \$100,000,000 to \$300,000,000. That put him far ahead of any other Britisher and in the Henry Ford and Rockefeller class. Even today the thrifty British are calculating that the nation will collect \$97,000,000 in death duties.

The Ellerman career, like that of Sir Thomas Lipton, proved that the art of being a self-made man bears no American patent. Ellerman rose from the humble place of black-coated English clerk in a shipping office. By 39 he was a millionaire. By 50 he owned one-eighth of all the British shipping.

He was frugal in a nation where somewhat free spending is the tradition of the wealthy. He never owned a yacht or a racing stable. It was said in the city that he never spent more than 5 per cent. of a year's income. The rest went into ships and more ships, land—he owned a large chunk of London—and newspapers. At one time his newspaper holdings rivalled those of Northcliffe. But Ellerman never shared Arthur Harmsworth's passion for political influence. He was content to collect the dividends and let the other men advise the cabinet.

Move Settlers North

Settlers In Drouth Stricken Areas Of Southern Alberta To Go North

The Alberta government and the railways have agreed to share the costs of moving about 150 settlers from drouth-stricken areas in southern Alberta, and only decision of the Dominion government as to its share in the project is awaited, according to Hon. George Hoadley, Alberta minister of agriculture.

The settlers will be moved to more favorable areas in northern Alberta.

Barley As A Food

Mentioned in Exodus 9:31, and in other books of the Bible, barley was one of the most important foods of the human race for thousands of years. Bared meal, as barley meal is called in Scotland, forms a favorite dish of porridge at the present day.

In the opinion of a dentist, soldiers make the best patients. They are thoroughly accustomed to drilling.

W. N. U. 006

French Aviators Make Successful Flight Across The Atlantic

Paris, France.—Lieut. Maurice Rossi and Paul Codos, the first to follow the Lindbergh trail, flew over his commemorative table at Le Bourget field Sunday afternoon, about half way on their projected flight to India for a new distance record.

The French crew dipped over the airport at 2:20 p.m. E.S.T., nine minutes behind Colonel Charles A. Lindbergh's time of 33 hours, 30 minutes from New York to Paris.

From their broad-winged silver monoplane, the "Joseph Le Brix," they dropped messages to their wives, who waved frantically to the aviators, and then pointed their ship eastward toward Munich.

Rossi and Codos had covered more than 3,500 miles since they made a perfect take off from Floyd Bennett field, New York, at 4:41 a.m. Saturday.

As the plane neared Le Bourget, the aviators sent word that more than one-third of their enormous gas supply of 1,770 gallons remained, and that they hoped to go 3,100 miles further to better the record of 5,340 miles for a non-stop flight.

Of scarcely 100 persons at the airport, the most excited were the flyers' wives and Lieutenant Rossi's mother and sister as the plane dropped to an altitude of 400 feet, the group of women waved and cheered and the aviators waved back.

Suddenly weighted messages were thrown from the ship and floated to the ground. The women shrieked and tears flowed from the eyes of Madame Codos. Madame Rossi laughed excitedly and then her eyes too filled with tears.

Both received scribbled notes from their husbands saying the take-off had been difficult, the voyage hard going, but that they were glad to be on their way.

Rossi and Codos had chosen a route from Munich to Vienna, Budapest, Bucharest, Aleppo, along the Persian Gulf and then to Baghdad or Karachi.

No Paroles For Rod Riders

Alberta Relief Commission Chairman Would Send Men To Relief Camps

Calgary, Alberta.—Efforts by A. A. Mackenzie, Alberta relief commission chairman to have paroles granted to rod-riders serving terms in Fort Saskatchewan jail, have failed. Alberta attorney-general's department has turned down Mr. Mackenzie's request.

The Alberta relief commission chairman had suggested vagrants convicted of stealing rides on trains should be sent to single dayless relief camps if they wished to go, while those refusing the offer should serve out their terms.

War On Kidnapping

President Roosevelt Maps Out Plan To Control Menace

Hyde Park, N.Y.—President Roosevelt mapped a war against kidnapping and racketeering with his intimate adviser, Raymond Moley, an authority on crime, and scanned every available federal statute to aid an immediate campaign.

To beat down kidnapping he is counting on a super police force, already in organization and at work, to co-operate with state authorities.

Moderate Policy Of Immigration Advocated By C. P. R. President

Quebec, Que.—Convinced the time has arrived for Canada to embark on a "definite, moderate policy of immigration, particularly from Great Britain," E. W. Beatty, president of the Canadian Pacific Railway Company, returned from a visit to the United Kingdom. Mr. Beatty arrived with Hon. E. N. Rhodes, Minister of Finance, and the Canadian delegation to the World Economic Conference, on board the "Empress of Britain."

"The penalty of our population is still a drawback in view of the external and internal obligations of Canada," said Mr. Beatty. "I do not think this country has anything to fear from a deliberate but, of course, not extreme policy of admission of those of our own race in particular."

Plans for inter-racial migration

Loan Easily Subscribed

Fine Reception Accorded Canadian Loan On London Market

London, Eng.—The most optimistic expectations were borne out when the lists for the new Canadian loan of £15,000,000 were closed directly after they had been opened.

It was understood, although not officially announced, that the first mail of the day had brought a substantial over-subscription.

The enthusiastic reception accorded the first Canadian loan on the London money market in 20 years was fully up to the welcoming comments of financial authorities after announcement of the loan last week, summed up by the daily newspapers called today "Canada's day."

Success of the loan will promote the financial co-operation between London and Ottawa "which is necessary if the policy of last week's empire declaration is to be made effective," said the Times.

That declaration called for closer financial relationships with stability of exchanges and directly preceded the re-entry of the Dominions into the London loan market.

Today's loan was in four per cent. bonds, sold at par and with no discount for cash, in 20 and 25-years issues. The proceeds will not go outside the empire, but it is understood they will be used to pay unconverted victory bonds of 5½ per cent. redeemable this fall.

Make Heavy Payment

Saskatchewan Pool Elevator Issue Cheque For Large Amount

Regina, Sask.—The Saskatchewan Pool Elevators recently paid \$145,414 to the liquidators of the Saskatchewan Co-operative Elevator Company in final payment on the purchase price of 1926.

With the exception of a payment on a mortgage to the Saskatchewan provincial government of \$597,590 plus interest, which is to be paid at the end of this month, the entire liability has disappeared from the books of the pool.

The purchase price of all the assets in 1926 was \$11,061,269.

Churchill Port Opening

Formal Opening May Be Postponed Until Next Season

Ottawa, Ont.—Hon. R. J. Manion, Minister of Railways and Canada, stated that formal opening of the port of Churchill will, in all probability, not take place until next year.

In response to a question by B. M. Stitt, M.P. for Nelson, Dr. Manion stated in the House last session that the official ceremony would probably take place this season. However, it is the desire not only of the Minister, but of the government—and the Prime Minister himself—that the latter should be present at the opening.

Want Shorter Hours

Winnipeg, Manitoba.—Adoption of shorter working hours in all Manitoba industries and more rigid enforcement of the Minimum Wage Act will be urged upon the provincial government by the Winnipeg Trades and Labor Council.

Bank Investigation

Personnel Of Commission Is Announced By Sir George Perley
Ottawa, Ont.—Personnel of the royal bank commission to inquire into operations of the Bank Act in Canada was announced by Sir George Perley, acting prime minister, at the conclusion of a cabinet council session.

Lord Macmillan, noted British jurist, has been appointed chairman and other members of the commission are: Sir Charles Addis, English banker and economist; Sir Thomas White, war-time minister of finance; Hon. J. E. Brownlee, Premier of Alberta; and Beaudry Leman, general manager and director of the Banque Canadienne Nationale, of Montreal.

Encounters Obstacles

Dog Musher From The Pas May Not Reach Chicago Fair

Winnipeg, Manitoba.—Pat Campbell, famed northland dog musher, has almost given up hope of reaching the World's Fair at Chicago with his team of racing huskies.

Campbell, and two companions, mushed the 500-mile trail from The Pas to Winnipeg, arriving here 15 days ago. Since then he has been trying to arrange for entrance to the United States, and has, appealed to Chicago fair officials for aid.

Immigration authorities demand a bond of \$200 each for Campbell and his aides and another bond of \$2 apiece for the seven dogs in his team.

Wheat Pool Payment

Further Payment May Be Made In Alberta

Edmonton, Alberta.—Possibility exists a further payment may be made to wheat pool members on the 1930 crop if present increased wheat prices continue, according to Premier J. E. Brownlee of Alberta.

Mr. Brownlee said the pool, which handled the crop under the guidance of John I. McFarland, of Winnipeg, may show a profit due to wheat values' jump recently. "There would seem to be good reason for using such profits by way of partial equalization, at least, of payments on the 1930 crop," the Alberta premier added.

Balloons Rise To Stratosphere

Record Temperature Of 87 Degrees Below Zero In Alberta

Calgary, Alberta.—A height of nine miles and a temperature of 87 degrees below zero is the record so far attained by meteorological balloons released from Calgary by Captain C. H. Bromley in connection with the polar year tests.

Twelve of the 22 balloons, equipped with instruments to record atmospheric conditions in the stratosphere, have been recovered, Dr. Bromley reports. The balloons have been released twice a month since last September.

B.C. Legislature Dissolved

Elections May Be Held About Middle Of October

Victoria, B.C.—The seventeenth legislature of the province of British Columbia was dissolved by proclamation of Lieutenant-Governor J. W. Fordham Johnson, acting on the advice of Premier S. F. Tolmie and his ministers.

No official date was announced for the general election to follow, but voting is expected about the middle of October.

HEADS BANK COMMISSION

Lord Macmillan, Noted British Jurist, appointed chairman of commission to inquire into operations of Bank Act in Canada.

Wheat Shipments

Via Churchill

Expect 5,000,000 Bushels Will Be Loaded This Season

Winnipeg, Man.—Traffic out of Churchill, Canada's two-year-old port on Hudson Bay, is expected this year to be double what it was last year, officials of the On-to-the-Bay Association report. More than 5,000,000 ton report. More than 5,000,000 bushels of wheat will be loaded by 20 ship in the next two months, compared with 2,736,000 bushels in 10 vessels last season.

The trial shipments were made by Dominion government chartered ships in 1931. Leading the procession of steamers that will plow their way through the chill waters of Hudson Bay to the northern port this year is the "Peninsular." She left Glasgow July 17 and is due at Churchill August 13, the quantity of cargo brought to her. There will be a substantial increase in new port this year, the first assignment comprising 10,000 tons of package freight.

Frost Damages Wheat

Will Be Used For Cattle Feed In Southern Alberta Area

Calgary, Alberta.—July frost attacks on the High River-Blackfoot area of Southern Alberta has injured 30,000 tons of wheat, which will now be used as cattle feed, it was revealed at a meeting of farmers and ranchers here.

The meeting, attended by Hon. George Hoadley, Alberta Minister of Agriculture, was held to ascertain feed conditions in the district.

Drouth also has seriously affected the district and plans were being made to solve the feed problem this fall with the aid of the cabinet minister who declared there was grave danger cattle would be sacrificed by holders during the coming months unless something was done about the situation.

Views On Monetary Problem

Calgary, Alberta.—A committee headed by George Coote, M.P. for Nanton, has been appointed to prepare a memorandum outlining the views of the United Farmers of Alberta on monetary problems to be presented to the royal commission on finance, Norman F. Priestley, vice-president announced recently. The royal commission will shortly start inquiry into operations of the Bank Act.

Railwaymen Decide To Take A Strike Vote As Wage Cut Protest

British Challenger

Speed Boat Developed In Britain Travels 100 Miles An Hour

London, Eng.—Hobert Scott-Paine will challenge Gar Wood for the Harmanworth trophy on behalf of Great Britain with a pocket motorboat of revolutionary design—Miss Britain III.—It became known as Scott-Paine, designer and builder, revealed his specifications.

He will leave for the United States and the races at Detroit either August 12 or August 18 with the little craft that weighs only 3,360 pounds as compared with the seven tons of Gar Wood's defender, Miss America X. The first race is set for Sept. 2.

Miss Britain, built at a cost of £22,000, has an engine of only 1,375 horse-power as compared to the 8,000 in Wood's craft, but the 24½ foot, all-metal speedster with an eight foot beam and only two inches of freeboard attained over 100 miles an hour on a two-third power trial held secretly in Southampton waters recently.

Trans-Canada Flight

Proposal Made For Mollisons To Fly Across Canada

Vancouver, B.C.—Prospect of Captain James and Amy Mollison making a flight across Canada, possibly non-stop, is envisioned in communications exchanged between the flying couple and Mayor Louis D. Taylor.

Replying to an invitation to visit Vancouver, the Mollisons wired: "Many thanks for your kind wishes. We shall certainly bear in mind the possibility of making such a flight as you suggest. Unfortunately our new machine will not be available for some time."

The mayor, at the suggestion of Ald. W. J. Twiss, chairman of the airport committee, and Manager William Templeton, wired to the Mollisons in New York that a trans-Canada flight would be of considerable interest to British aviation and added that a machine is available in Toronto. He referred them to Mrs. Amelia Earhart, Putnam, whose guests they have been, and who was a recent visitor to the airport here.

Welcome For Prize Winner

Plan Reception For Freeland Wilford At Stavelay

Calgary, Alberta.—Premier J. F. Brownlee of Alberta and Hon. George Hoadley, Alberta Minister of Agriculture, are expected to attend the royal welcome being prepared to Freeland Wilford, winner of the world wheat king crown at Regina World's Wheat Exhibition and Conference, at Stavelay, where his farm is located.

Wilford is expected to return to Stavelay August 7.

Business-Like Study Of Banking System Is Aim Of Commission

BRITAIN'S AIR MINISTER BECOMES A PILOT

Lord Londonderry, British Secretary of State for Air, evidently believes in practicing what he preaches. Two weeks ago he gained his "A" certificate for flying and a week previous his second daughter, Lady Margaret Stewart, also qualified for her "A" certificate. Lord Londonderry's youngest daughter, Lady Mary Stewart, who is not yet 13, is rapidly becoming an accomplished flyer. Our pictures show Lord Londonderry in the cockpit of his plane and inset is a photograph of Lady Margaret.

Montreal, Que.—Immediate steps will be taken to poll a strike vote of the running trades employees on Canadian railways, it was announced by the general conference committee of the engineers, electricians, conductors, trainmen and railroad telegraphers.

Some 24,000 men operating trains on the widely-fung railway lines of Canada will be called upon to decide whether they wish to take another 10 per cent. reduction in their wages or leave the trains idle in the yards and attempt to tie up the transportation system of the country.

Confronted with the refusal of the Canadian National and Canadian Pacific railways to withdraw from their stand insisting on a further 10 per cent. wage cut the committee decided to prepare a strike ballot and distribute it to the members of their respective unions at once.

The latest development brings the Canadian railway situation to a position which a few months ago was regarded as impossible.

Last June when the union chiefs were negotiating with the companies the minister of railways and the minister of labor the prospect of a strike was scarcely considered.

Decision to take a strike vote commits the union heads to a course of action never before taken by the running trades as a whole. Union leaders expressed the opinion there would be a strike unless the attitude of the railways is changed. It will take a month or six weeks, however, for the ballots to reach every man in the various services and for the results to be tabulated.

No comment could be obtained from officials of the railway companies on the latest development in the wage dispute.

Bank Act Inquiry

Is Expected To Be Completed Early In October

Edmonton, Alberta.—Inquiry into operations of the Bank Act by the royal commission, announced by the Dominion government, is expected to be completed early in October, according to Premier J. E. Brownlee of Alberta, selected as a member of the commission.

Mr. Brownlee revealed Prime Minister R. B. Bennett had invited him to join the commission before the Canadian government head left for London to attend the world economic conference.

Would Reverse Order

The Okanagan Valley Co-Operative Creamery of British Columbia would reverse the order of things and ship butter to New Zealand, taking in return lumber or fish. Directors of the company have petitioned the Minister of Trade and Commerce requesting him to try to arrange a shipment of Canadian butter to the Antipodean Dominion.

Quebec, Que.—A careful and business-like study of Canada's banking and credit system is the aim of Lord Macmillan, who arrived from London on the liner "Empress of Britain," to head the royal commission recently appointed for that purpose.

"We want to do something really useful for Canada," said the author of the Macmillan report, made three years ago on the similar problem in England. "We are taking this very seriously and we need the goodwill of the Canadian people to make it a success."

Lord Macmillan is making his fourth visit to Canada in seven years and is no stranger to Canada. "I am practically a Canadian," he said. "I sit on the privy council on many Canadian appeals and on my first visit to Canada I was counsel for Canada in the Labrador boundary case."

Sir Charles Addis, the other English member of the commission, was also on board the "Empress" and expressed himself as keenly interested in the case ahead of him. Both Lady Macmillan and Lady Addis accompanied their husbands.

A former lord advocate of Scotland, Lord Macmillan proved to be a

most affable and friendly personage and humorously described himself as an "orra man." "In Scotland," he said, "we call an old job person an 'orra man' and that's what I am. I am not an expert banker and this is really a side line."

There will be only five members on the commission, the Canadian members being Sir Thomas White, former minister of finance; Hon. J. E. Brownlee, Premier of Alberta; and Beaudry Leman, president of the Banque Canadienne Nationale.

He expects to complete the inquiry within two months but the report may not be made to the government until later in the year.

The report of the commission will form the basis for the decennial revision of the Canadian Bank Act, which was due last session of parliament but was postponed one year in order that this inquiry might be instituted.

All important business centres will be visited by the commission and those who have anything to contribute to the success of the inquiry will be given a hearing. The concluding session will be held in Ottawa.

NOTES AND COMMENTS

Hugh Savage, a weekly newspaper publisher on Vancouver Island, is not a savage man. As a political candidate, he has announced that the slogan of the Oxford Group, containing something about "Purity," will be one of his ambitions to introduce into politics. What a vain hope, however commendable! There may be just as strange things happen as the lion lying down with the lamb, but to see purity in politics—well—James Shaver Woodsworth might think it can be done, but might he feel newspaper men of the same opinion. He'll believe it or not. Ask Mr. King or Mr. Bennett, or even George C. Coote, who has been invited to come to the Pass and help to furnish sport for Murphy's dupes in a debate on the C.C.F.

Every town has its peanut-politicians because the local newspaper will not support them in an election campaign, try to throw the hooks into it by cutting off their subscriptions and wishing the editor were in hell. We have them, make no mistake. Such action maybe is calculated to shake the equanimity of the office that it will crumble like a house built of cards. Which reminds the writer of an election incident of many years ago in Saskatchewan. Alleged timber limit steals by a group of western politicians occupied the public mind, and we published a cartoon depicting those accused of stealing the public domain as timber wolves, their heads being on wolves' bodies. This worked up an ardent supporter of these politicians, and he came in so enraged that we kept the counter as a barrier between us, with the mallet quite handy. What he wasn't going to do isn't worth telling. The trouble is that some people take themselves and their politics too seriously, not to mention the newspapers. Divergence of opinion surely makes life interesting, especially if you're Irish. It would be too dull around a newspaper office were it not for turbulent visits of disagreeable people.

Grade Eleven in the high school has been instructed to read Charles Dickens' "Oliver Twist" as part of the study of literature. Students will not require to be urged in this particular feature, for once you commence to read this wonderful portrayal of life in the workhouses and the degraded underworld life of London it is difficult to tear oneself away from the book. The second side of life is a good thing to know of, though one could not recommend it as an experience. But, having read the book, one concludes that Dickens was simply splendid in his portrayal of such characters as Fagin the Jew, Bill Sikes the burglar, Nancy his accomplice, Bumble the beadle, and other types prominent in this thrilling story. Once the students get started on reading the book, there will not be a sufficient number of copies to supply the demand, as parents will want to read it too, and there is war in the home when more than one wants to read the same book at the same time.

Wanted—At least fifty business men to contribute two dollars each to the Board of Trade to carry on its work. Publicity in the Red Trail folder costs money, and there are other sundry expenses which cannot be avoided if a local board is to function. One instance of the board's work is the building of the airport here, for without the interest displayed over three years ago by laying out an emergency field, Coleman would not have been selected for the work now in progress. Two dollars paid to W. L. Rippon, secretary, will give the time of being personally canvassed. The board gives its time in attending to enquiries and personal visits from various parties. Business men desirous of promoting their own interests and of the town in general should gladly contribute this small sum. It is good business to do so. Don't wait for someone else to do the boosting; jump in and do some yourself, and help to make our own town count for something. Pay that two dollars membership fee with a smile. Its worth it!

STONEBOARD means Fireproof. Absolute protection plus insulation against heat or cold. Damp proof and harder, a wall surface that resists seeping and takes all finishes. Will outlast any other wall-board made, costs less. In stock at J.S. D'APPOLONIA.

Fellows who speed around town at excessive speeds should be severely "jacked up" and given a good talking to by the magistrate. The absurdity of rushing around with nowhere to go makes one think that some car drivers must be light in the cranium. Its usually the fellows with least to do who are the worst offenders.

A. J. Shulman, well known as travelling passenger agent of the C.P.R., who made frequent visits to Pass towns, passed away last week in Regina, while there on business in connection with the World's Grain Exhibition. He was 59 years of age, and is survived by his wife and two children. His passing brings to mind his pleasant and obliging disposition and never failing courtesy in the course of his business, and newspapermen particularly remember his periodical visits which were always a pleasure. He was a faithful servant of the company and a gentleman in every sense of the word.

The suspense of many Coleman school pupils was relieved when they received the examination results last week-end. "There were smiles that made some happy, and smiles that made some sad."

Provincial elections in British Columbia will probably be held on Nov. 2nd or 9th.

Here and There

Indications point to a fairly early harvest in Western Canada, says a late July weekly crop report of the Canadian Pacific Railway agricultural department. A few points in southern Manitoba, the report added, had already started cutting wheat and barley.

Canada jumped to fourth place in bacon exports to Great Britain last May as compared with sixth place in 1932, behind Denmark, Holland and Poland. Total exports to Great Britain from Canada in May were \$565,400 lbs. or at the rate of \$6,000,000 lbs. per annum.

There were increased retail sales in Canada in May as compared with April and the index number of the Dominion Bureau of Statistics rose from 83.7 to 85.6. Hardware had the best showing, the increase being from 75.3 to 112.3.

A spare blue-clad figure which to thousands of passengers through Vancouver in the past seven years represented a symbol of friendliness in a strange city will no more be seen around the wharves and terminals of the Canadian Pacific railway in the Coast city since Albert Charles Pearson, terminal passenger agent for the company, died there recently.

With rising prices for wool and a vast Chinese market for wheat caused, partly by the Australian monetary exchange, Australia is rising steadily to a greatly improved economic position, declared Warwick Fairfax, managing director of the Sydney Morning Herald, Australia's oldest newspaper, a traveller recently on the Canadian Australasian liner Niagara.

Meeting at a time when the nations of the world were never so much in need of close co-operation economically and politically, the fifth biennial conference of the Institute of Pacific Relations to be held at the Banff Springs Hotel, August 14-23, is regarded as a possible turning point in the affairs of all the nations bordering the Pacific.

Self-regulation of motion pictures by producers to conform with ordinary standards of decency will ultimately render boards of censors unnecessary, predicted Will H. Hays, Czar of Hollywood, interviewed recently at Vancouver where he arrived from a short stay at Banff and Lake Louise. Clark Gable was another movie star visitor at these famous mountain resorts.

All Ontario district brother officers of Norman M. McMillan, superintendent, Bruce Division, Canadian Pacific Railway, with H. C. Groot, general superintendent, as chairman, took part recently in a presentation to Mr. McMillan of a silver tea and coffee service, at the Royal York Hotel, Toronto, on the occasion of his promotion as assistant to H. J. Humphrey, general manager, eastern lines of the railway.

Unheralded, unrecognized and unexpected, Mrs. Franklin D. Roosevelt, after an all day motor trip through French-Canadian country east of Quebec City, motored recently into the Ancient Capital and put up at the Chateau Frontenac. The wife of the President of the United States, the following day took in the sights of Quebec from the high seat of a catheche, the quaint one-horse vehicles characteristic of Quebec City.

Say Good-Bye
to "HUMDRUM"...

ENJOY THE LIFE OF A CHEVROLET OWNER

OPEN UP the road map. Pick out some fascinating spot . . . somewhere . . . a long way off. Then point the nose of your Chevrolet towards it—and take off! That's the life of a Chevrolet owner! Going places in style—and saving money.

What does it matter if you must budget on trips? Half the thrill of owning a Chevrolet is the way you can pass by the gas pumps—the oil stations—and the garages. Weather hot? That doesn't matter either—for Chevrolet has Fisher No-Draft Ventilation. Just turn on the breeze, whenever you like, and keep delightfully cool and refreshed. Roads bad? Who cares if they

are—when you're settled back in this long, full-weight, smooth-engined Six that rides the bumps and takes the hills so beautifully. A long way to go? Just step on the Starter-ator—and watch the miles tick by. Chevrolet gives you power galore—pick-up aplenty—and that secure feeling, however fast or far you drive, that Chevrolet dependability rides with you as you go.

Canadians know a good thing when they see it. So, just as you would expect, most of this year's buyers are leading the lives of Chevrolet owners—motoring smartly and economically in Canada's Great Sales Leader! Low delivered prices and easy GMAC terms.

A Scientist's Opinion of Beer!

A. CHASTON CHAPMAN, F.I.C., F.R.S.

"Beer not only has food value, but it has, for many persons, stimulating properties and tonic properties. It is distinctly a tonic in many respects. All these properties, together with the effects on the palate of people who like it, go to make it a beverage which has so many advantages that you cannot compare any other beverage with it."

United States And European Radio Programs To Be Heard Over Canadian Stations

Canadian radio listeners will hear over Canadian stations outstanding United States and European radio programmes as a result of arrangements completed between the Canadian radio broadcasting commission and the big broadcasting companies of United States—National Broadcasting Company and the Columbia broadcasting system.

These arrangements were concluded in New York by Thomas Maher, vice-chairman of the commission. In return for the American programmes, which are to be supplied to the commission for its national network, the commission is to supply the American companies with some of its popular programmes for broadcasting throughout United States. Announcement of the arrangement was made Friday by the commission.

Programmes to be supplied to the commission from the United States include grand opera from the Metropolitan Opera House, New York, and the concert of the New York Philharmonic orchestra. The American broadcasting companies are also to supply programmes of their own creation in which famous singers and orchestras will be employed.

In addition to supplying the commission with American programmes, the United States broadcasting companies are to make available to the commission the broadest range of important events and other features which they bring across the Atlantic from Great Britain and the continent.

As the programmes will be carried on the commission network to stations in all parts of Canada, reception difficulties in connection with these will be overcome.

The exchange of programmes is a co-operative step and is without cost to the commission.

The United States end of the exchange will commence about October 1.

Over Twelve Million Chinese Living Abroad

Population In Canada Is Given As Forty-Five Thousand

Chinese agitators against the so-called foreign imperialism never tell their listeners the magnitude of China's communities in other countries. However, the Chinese overseas affairs commission announced that 12,786,172 of their people reside in the United States and elsewhere beyond China.

Out of 22 nations or groups of nations listed, the United States ranks fourteenth in number of Chinese residents, the total being 74,954. Burma ranks well ahead with 4,450,000 Chinese, while Siam with 2,500,000 is second and Malaysia is third with 2,000,000. In Dutch East Indies there are 1,233,856, in Korea 915,000, in Hong Kong 825,645, in Indo-China 486,000, in Formosa 340,000, in Soviet Russia 300,000.

Mexico, which is rapidly becoming the graveyard of Chinese settlers, is listed as having 120,000 and ranks tenth in the list. However, hundreds of Chinese have just arrived back in China and more are to follow.

Macao, Cuba and the West Indies and the Philippines rank just ahead of the United States in Chinese residents. Following thereafter in decreasing proportions come Australia and the South Seas Islands, Canada with 45,000, Peru and Latin America, Honolulu, Japan with 25,965, South Africa, Panama and Central America with 25,000 and Europe with but 15,000 Chinese.

Speedy Results

A young man who had suddenly inherited a fortune decided to learn how to carry himself in society. He went to a school of deportment and a bowing Frenchman begged him to enter.

"Do you give lessons in deportment?" inquired the young man.

"The best, m'sieu!" rushed the proprietor. "My system excels perfect. Two weeks ago a young man—like you, m'sieu—he take only three of my lessons in deportment—and yesterday he was deported."

Bobby (looking up from his book): "Is oxygen what oxen breathe all day?"

Father: "Of course, and what every other animal and person breathes."

Bobby: "And is nitrogen what everyone breathes at night?"

About 2,500 factory operations are necessary to produce accurate dependable rifles.

W. N. U. 2006

Start Novel Campaign

Women's Council of Britain Advocates Men Teachers For Boys

The women's council of Britain want the men of the future better guided at school and they want men to do it. In fact this body is in revolt against women teachers for boys. A women's council has been formed, with the Countess of Oxford as president, and Dame Madge Kendal, Miss Marjorie Bowen, and others as members, to advocate masters for boys over the age of 8. The honorary secretary is Miss Marguerite Bennett, principal of the Crouch End College and high school, and she tells why this novel campaign had started.

"Our object is a simple one. We wish every boy to have every chance to develop his masculinity. To do that he must early come into touch with a man. Such a lot of education is imitation and a man teacher is necessary for a boy when he is at his impressionable stage. A boy loses more than he can ever regain if he does not have a master before he is 11.

"We are organizing branch councils in the provinces," she said, "and will hold lectures and meetings and bring all the pressure we can to bear on the ministry of education to make the alteration we desire. There are more than 1,000,000 boys in England today, between the ages of 8 and 11, who are being taught by women."—Brandon Sun.

By Ruth Rogers

742 SO PRACTICAL AND SUITABLE FOR GIRLS OF SCHOOL AGE

Why not let checks do lots of helpful work for you? They will for they are distinctly a la mode this season. Besides they are very wearable—lovely for school, spectator sports and travel.

This attractive jumper model has a removable cape. You'll find it so accommodating on warm days.

Light navy blue woolen mixture made the original. The gumpie was bright red washable crepe.

The cape may be lined with the red crepe or left unlined with the edges turned and stitched on the machine. The red crepe appears again, in cape collar.

It's easily made!

Style No. 742 is designed in sizes 10, 12, 14 and 16 years. Size 12 requires 3 1/2 yards 39-inch with 2 1/2 yards 39-inch for blouse and cape lining.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Our Canadian Population

Last Census Showed Comparatively Few Aliens In Dominion

Compilations from the census of 1931, which are now being made available to the public refute the supposition that "Canada is being—or has been—"over-run with foreigners." Of the 10,378,786 people found by the enumerators in Canada in that year, 9,254,091 were born in the Empire, and 8,069,261 of these were born in Canada itself.

It will be said, of course, that many of these were born of foreign parents. But the number is probably less than might be thought. Of the 10,378,786 residents, only 1,659,095 were the offspring of two foreign parents, and only 570,525 were the offspring of foreign parents and themselves foreign born.

It does not follow that these are aliens. Many have been naturalized. The census, in fact, shows only 529,139 aliens in Canada, including Canadian and British subjects who have lost their Canadian nationality (by marriage to an alien husband, for example), and including also many migrants of British stock who have come to Canada from the States. Of these aliens, 438,446 were more than twenty years old. Many of them have been naturalized since the census was taken.

While the census men found 529,139 aliens in Canada, there are probably close to that number of Canadians who live abroad and are not included in the census at all. Of 1,278,421 persons of Canadian birth residing in the United States in 1930, 368,557 were classified as having retained their Canadian citizenship. No doubt a proportion of these have, since that time, returned to the Dominion.—Toronto Daily Star.

The Real Pulling Power

No Better Means To Reach Public Than Through Newspaper

One of the things the depression years seem to have taught American business men is that the newspaper advertisement is surest and most effective means of reaching the consuming public.

Figures just made public by the Bureau of Advertising of the American Newspaper Publishers' Association show that newspapers received 99 per cent. of the total advertising appropriations of 432 national advertisers in 1932 and constituted the preferred advertising medium of 19 of the principal trade groups in the United States.

Newspapers for example got 82 per cent. of the automobile advertisements; 74 per cent. of gasoline ads; 92 per cent. of the railroad ads and 87 per cent. of the shoe and clothing advertisements.

The figures are a remarkable tribute to the "pulling power" of the newspaper advertisement.

Two thousand unemployed men will gather potatoes in the Island of Jersey, England, this year.

A squeak detector for automobiles has been installed in one service station in Washington, D.C.

Something New In Oil Wells

Has Been Producing Pure Vaseline For Ten Years

A freak oil well which came in ten years ago as a producer of almost pure vaseline is still pumping the heavy golden substance and paying its owner at Lamar, Oklahoma, handsome returns.

Perhaps the only well of its kind in the world, the well is a marvel to veteran oil men, both as to the oil it produces and its life. Men who have followed the oil industry in many climes said they never have seen of a similar well.

The well was drilled in at 3,710 feet on Jan. 26, 1923, for production estimated at 350 barrels a day. The "vaseline well" still produces around this amount and still is the only well in the area. Other drilling attempts have produced dry holes.

The strange kind of oil flowed over the derrick 200 feet when the well was drilled. Dark green in color, the oil turned a brilliant golden yellow when it struck the outside air. Analysis showed it to be almost pure vaseline. It was so heavy that it hung from fences near the well like gum.

Because of its thickness ordinary pipe lines would not carry it. A special line, with a steam pipe to heat the almost solid lubricant, was used.

New Guide For Airship

Pilot Can Leave Cockpit Without Endangering Craft Or Self

After two years of experiments, the "airlobot," a compact box one foot square and weighing less than 30 pounds, has been perfected to take complete charge of an aeroplane after it hops off.

Encased in a metal box, the automatic pilot would guide the ship to any predetermined height, level off and start on a charted course without a human pilot touching the controls.

Gyroscopically controlled and hydraulically operated, the device includes an automatic turn control, and automatic climb lever and a descent control. The human pilots can leave the cockpit for any length of time during actual flight without endangering the flight.

One of the airlobots now is in use in a passenger aeroplane of a well-known air line. The machines average 180 miles an hour on a transcontinental jaunt.

The device does not dispense with the services of the pilot or co-pilot. Pilots are required to take off and land the aeroplane and to keep a close check on weather soundings.

After Twenty-Two Years

Stolen In Edmonton, Alta., 22 years ago, Detective-Sgt. Roy Roy recently recovered a watch in a Vancouver second-hand store. Only once before was the missing watch seen by police and that was on June 1, 1917, when it was recovered from an ex-convict. A short time later it disappeared and no trace of it was discovered until now.

The wings of a common house fly vibrate 330 times a second.

THE SCULLING CHAMPION AND THE COVETED TROPHY

Ted Phelps of Great Britain, holder of the world's professional sculling championship, is shown standing beside the Charrington Cup, emblematic of the title. The trophy will be at stake when the British sculler and Bob Pearce, Australian star, now residing in Hamilton, Ontario, race at the Canadian National Exhibition this Fall.

Canadian Publisher Finds That Life Goes On In Russia Much The Same As In Canada

Week In Civilization

Enough For Trapper

Makes No Apologies For Desire To Return To Northland

A week in civilization is enough for Ranger Jonsson, one of the best known trappers in the far north, in Prince Albert recently on his annual jaunt into the land of automobiles and depression.

He left again for Big River where he planned to push off his big canoe and peddle his way to his trapping grounds in the Hatcher Lake country, 400 miles from Pin Flon, Manitoba. He and his dog followed the waterways to Pin Flon from their northern home, shipped the canoe to Big River, spent four days in Prince Albert, and then away again.

He was a visitor at Prince Albert last summer and promised to go back next year. Civilization has its attractions but the hardy trapper makes no apologies for his desire to get back to the land of trees and water.

Listening to his stories of experiences and looking at the wonderful collection of snapshots of his outfit, his fur catch and of the scenic wonders of the northland, makes that desire understandable.

He spoke lightly of carrying his canoe and equipment over mile portages necessitating seven trips back and forth or a total of 14 miles walking. On the round trip, there are 60 of them, though only a few are that long.

A trader in the city stated that each year Jonsson comes in with the largest catch from the north. In addition to that, he is what is known as a "clean" trapper; his stock is always in good shape at his arrival.

Canadian Invents "Super-Eye"

Its Use Will Make Perfect Television Possible Is Claim

The invention of a "super-eye" which is claimed will make perfect television possible, revolutionize the speedy transmission of messages and motion pictures, and multiply a thousand-fold the power of telescopes, has been announced at Ottawa. The inventor is Dr. Francois C. Henroteau, head of the astrophysical branch of the Dominion Observatory.

Dr. Henroteau has been working for 10 years on an apparatus which he hopes will facilitate astral observation. It is stated that application of the apparatus to television had not been contemplated until his research disclosed the possibilities in that direction. Use of the photo-electric cell is said to be the basis of the invention which has been patented in the United States after a series of tests.

Dr. Henroteau was the discoverer of the mysterious planet "Y," which was at first thought to be the planet "X" discovered by the Lowell Observatory in Arizona.

Retire Civil Servants

Order Passed To Retire Those Who Have Passed Age Of 63 Years

Pursuant to the governments efforts to reduce the annual cost of public service by an amount estimated in the budget speech last March to reach \$14,000,000, the government in council passed an order providing for the retirement of civil servants who have reached or may reach the age of 65 years.

This is only one of the methods being adopted by the government in its economy efforts and the number of employees concerned is estimated at about 1,500 throughout Canada. Those retired will receive their superannuation allowances as provided under statute, and if not contributors to any retirement fund, will be given bonuses amounting to one month's salary for each two years they have been in the service up to a maximum of six months' salary.

New Coinage For Spain

Coins which bear the head of ex-King Alfonso are to be replaced in a few weeks by the new coinage of the Spanish Republic. The head of Don Alfonso will be replaced on the face of the peseta by a female figure representing the republic. On the reverse will be the arms of Spain. The 25-centimes coin will have a symbol of the Republic of Workers with a peasant shaking hands with an industrial worker.

More ships are entering the harbor of Hong Kong, China, this year than last.

The London Daily Express carried a long interview with Robert Cromie, publisher of The Vancouver Sun, who has just returned from Russia where, he said, "life goes on just the same as it goes on in England or Canada or China. Once you get that thought in your mind, you get a new conception of Russia," he added.

The newspaper quoted Mr. Cromie as saying:

"I landed in Moscow on their Derby day. I saw 50,000 people at the horse races betting on the ponies just like they bet in England. They were having drinks and lunches, but of course, it was all on the Russian standard, which is not exact, by 20 lengths."

"But the spirit of the people was the same as any crowd in England or Canada. The tram cars of Russian cities are jammed with people. They are completing an underground system in Moscow in 1934. I saw a crowd of 50,000 well-mannered, enthusiastic people watching a football match in Moscow. That was an eye-opening to me."

"I hear some critics say that conditions were not too bad in Moscow, but that down in the Ukraine people are starving. Someone from the Ukraine told me that the people in Moscow are starving too. Everything one hears about Russia is both true and untrue. It is time the civilized world began to sort them out."

Studying Crime Impulse

Committee In London Seeking Its Cause And Cure

A secret inquiry is being conducted by a committee in London to deal with the problem of the "uncontrollable impulse" in its relation to crime.

The committee which has held several meetings, is composed of magistrates, business men, psychologists, medical men, a K.C., and a well-known "criminal" barrister.

When the investigation is completed a report will be sent to the Home Office with suggestions on a question that for years has baffled judges and doctors.

Questions relating to the treatment and punishment of offenders susceptible to "uncontrollable impulse" form the basis of the inquiry which is being conducted by men who have had opportunities of observing how it affects people in different walks of life.

Two points under consideration, for instance, are:

How far, if at all, should a person be punished for an offence committed under an uncontrollable impulse? and

Can that impulse be checked in youth, or eradicated if allowed to persist?

The investigation which, it is believed, may prove of considerable importance in criminal jurisprudence, developed on the subject of kleptomania.

A woman in high social position had been charged with stealing from a London store, and the plea of "uncontrollable impulse" was raised in mitigation.

The activities of the committee, however, are not limited to considering the problem as it affects shoplifting. They realize that while the impulse takes that form in one case, there is a great variety of forms—many of them leading to very serious offences.

Experience gained by the members in their different capacities has been placed before the inquiry, and some illuminating information relating to cases and treatment has been collected.

Carrots Good For Cattle

Beaut Shown In Heavy And Glossy Coats

Experiments of some Chicago experts for several years have proven that the lowly carrot, favorite food of rabbits, is the best internal hair tonic yet discovered.

The vegetable's beneficial effects was first noticed when cattle were fed on carrots. Their coats became heavy and glossy.

Experts experimented on humans, and declare the carrot diet causes noticeable improvement, but that it does not equal that of animals.

Sixteenth century apothecaries made oil out of earthenware as a rubbing remedy for rheumatism.

Londoners borrowed 10,000,000 novels from public libraries in the last year.

Now the three R's are rouge, rum and unabated.

WORLD HAPPENINGS
BRIEFLY TOLD

It has been officially announced at Ottawa, Monday, October 9, would be the national Thanksgiving Day for Canada.

Henry Ford recently passed his 70th birthday, in excellent health and so engrossed in many interests that he has no time to think of such things as retiring.

Cherbourg has opened a \$2,500,000 maritime station, 920 feet long and 138 feet wide, in which Paris-bound travellers will be transferred from ships to special trains.

C. Barclay Drummond, vice-president of the Mechanical Equipment Company, died recently in Montreal, after a long illness. He was 38 years old and a son of the late Dr. William Henry Drummond, the noted poet.

East Coulee miners of the Drumheller Valley coal fields, on strike against wage reductions for three months, demanded 18 per cent. salary increases. Five mines are affected by the strike.

Thirty-two thousand, three hundred and seven sheep, 22,871 cattle, 162,248 hogs, and 32 calves were shipped from western to eastern Canada during the first 24 weeks of this year.

Nelson's personal log book has been handed over by Prime Minister Ramsay MacDonald to Sir George Hill, director and principal librarian of the British Museum. The entries in the book are in the admiral's hand.

The mobilization of Mexico's resources for rehabilitation of her economic life through a six-year program has begun under the command of General Plutarco Elias Calles, the "iron man" and former president of Mexico.

Columbia revenues for the first quarter of the present fiscal year were \$60,000 greater than for the corresponding period last year, states Hon. J. W. Jones, Minister of Finance. Receipts were \$3,810,000, compared with \$3,750,000.

The first caland of new wheat from Manitoba was loaded at the elevators at Gretna, Man., with wheat from the farm of D. Klassen. The grain was an excellent sample, grading No. 1 hard and indicated a yield of 16 bushels to the acre.

Test H.B. Route

Will Investigate High Insurance and Cargo Rates

The Federal Government is prepared to consider the feasibility of tests by Canadian government vessels of the Hudson Bay route before the present accepted season and after the season, it is indicated by Edward Evans manager of the Southern Saskatchewan stock yards at Moose Jaw. The suggestion is the result of the recent Saskatchewan stock growers conference and its purpose is to determine the justice or otherwise of existing high insurance and cargo rates. Mr. Evans has received notification that an official of the Federal Department of Trade and Commerce will shortly come to Saskatchewan to discuss the proposal.

New Law Has Precedent

Death Penalty For Kidnappers In Year 1865

If New York state legislators decide to enact a law providing the death penalty for kidnappers, as has been urged, they will have precedent in the colony's first English laws, and precedent is dear to a legal mind.

On March 1, 1665—269 years ago—were promulgated the Duke of York's laws which named 12 offenses for which the death penalty was inflicted. One of them was kidnapping. It read: "If any person forcibly steal or carry away any man or maid, he shall be put to death."

Avalanche Victims Found

With the melting of the snow on the Swiss Alps six of 13 avalanche victims have been found 7,500 feet above Locarno. The 13 were smothered in sugar and coffee across the frontier when the avalanche swept them from a pass and buried them under snow, ice and rock 3,000 feet below. Search for the remaining seven is being continued.

Not All Superstitious

A ten-minute checkup on the person trying to negotiate a ladder set up on the sidewalk in Sacramento, California, was as follows: Of the forty-six women passing, thirty-four walked around and thirty-eight of the sixty-nine men did the same. Twenty-three men and twelve women walked under. Possibly some didn't want to be hit with a brick—or a grab of paint.

W. N. U. 2006

Work Of Banking Commission

Monetary System One Of Many Things To Be Studied

The terms of reference under which a banking commission of Lord McMillan, Premier Brownlee of Alberta, and Beaudry Leman, of the Banque Canadienne Nationale, Montreal, will inquire into the act's operations are:

It is desirable that such examination should include a study of the facilities now afforded by the Finance Act and a careful consideration of the advisability of establishing a central banking institution, and, if so established, of the relation of such central bank to existing banks and its proper authority and function to the operation of the banking system.

That such examination should also include a study of the entire monetary system of Canada, including credit, currency and coinage, particularly in their relation to commodity price movements and fluctuations in international exchange.

It is also advisable to consider whether and in what respects the banking institutions and the monetary system of Canada may be modified, extended or developed for the purpose of facilitating inter-imperial and international co-operation in public policies designed to promote the revival of domestic and foreign trade and enterprise and the general increase of employment and to insure a greater measure of stability in respect thereto.

The school was established in September, 1929, under the auspices of the United Church of Canada, starting with one building, the home of the late Sir James Aikins, bequeathed to the church for the purpose of giving western Canada a more cultural institution to fill a special need in a growing population. The following year a new building, to be used as a main school, was erected and the present group of three imposing structures includes also the former residence of Col. G. H. Aikins, K.C., a son of the original donor.

Regularly inspected by the department of education, the school has faced scrutiny with a proud record, its student body, fully aware of the significance of establishing tradition for their Alma Mater.

Riverbend begins the fall term with a teaching staff of fourteen, with Miss Foster again as principal and in-charge in history. All holding academic standing of a high order and with tested teaching experience, the members of the staff are specialists in pursuits devoted to the educational and aesthetic development of the cultured Canadian womanhood. Assisting the principal are: Miss Barbara May Erith, B.A., London University, in English; Miss M. Floyd Stephens, B.A., also London University, in French and German; Miss Beatrice Wilson, B.A., Toronto, in Scripture and Mathematics; Miss Mary E. White, M.A., of Oxford and Queen's, in Latin; Miss Marian MacDougall, B.Sc., of Dalhousie, in Science and Mathematics; Miss Florence F. R. Mews, of the Margaret Eaton School, in Physical Education; Mrs. Donald Munroe, Manitoba Agricultural College, as house manager.

In the Junior school, presided over by Miss Laura Cull, are Miss Sadie M. Gregory, B.A., of Manitoba Uni-

versity, for grades V and VI; Miss Verna V. Vaux, for grades III and IV; Mrs. Gordon L. Jamieson, in the kindergarten and Mrs. Nina Ferguson Dempsey, A.T.C.M., L.A.B., in school singing and music appreciation; Miss C. M. Laing is the efficient secretary. Increased attention has been paid to the teaching of Grade XII work, and the course of study, following in general that of the Manitoba school system, begins at the kindergarten and includes that grade.

Special emphasis, explains Miss Foster, is placed on those subjects which are most important from a cultural standpoint, such as, for example, English, French and music; the teaching of French, including conversation at meals, a French club, and other extra curricular activities which help to make it something more than a class-room subject.

From a graduate of the Margaret Eaton School of Physical Education, Toronto, pupils of Riverbend are given instruction in corrective gymnastics and physical education which includes practical work in the indoor and outdoor sports of well-rounded living. Ideally situated on the wooded campus of Assiniboine River, the school, capable of accommodating 190 pupils and with an attendance in its first few years between 120 and 150 including both day and boarding students, Riverbend with its new building providing model class rooms, gymnasium, music room, and dining hall, supplies a "school away from home" of the highest standard.

Many names prominent in the social and church life of the west appear on its enlarged advisory council. Among the thirty-one from Winnipeg including Mrs. E. C. Harte, chaperone of Government House, and Mrs. John Bracken, wife of the provincial premier, are Mrs. C. B. Armstrong, Moose Jaw; Mrs. Robert Porke, Pipestone; Mrs. C. F. Adams, Calgary; Mrs. A. D. Laird, Yorkton; Mrs. R. C. Wallace, Edmonton; Mrs. J. E. Brownlee, Edmonton; Mrs. W. C. Murray, Saskatoon; Mrs. A. Neill, Brandon; Mr. Douglas J. Thom, Regina; Mrs. A. M. Scott, Calgary, and Miss Alice Fildes, Winnipeg.

With the distinguished patronage of His Honor Lieutenant-Governor J. D. McCreedy and Premier John Bracken, the school functions under a board of governors consisting of James A. Richardson, L.L.D.; D. C. Coleman, L.L.D.; Isaac Pitblado, K.C., L.L.D.; G. H. Aikins, K.C.; Principal John Mackay, D.D.; Rev. J. A. Cormack, D.D.; Rev. J. W. Aikens, D.D.; W. M. Neal, L. F. Falk, J. A. Dowler, and Mrs. David Watt.

RIVERBEND SCHOOL FOR GIRLS

Manitoba Institution Devoted To The Educational And Aesthetic Development Of Young Canadian Womanhood

Attended by success from its inception, Riverbend Schools for Girls, Winnipeg, will continue its work as a boarding and day school for girls with the reopening in September, according to the prospectus just off the press. A hundred per cent. academic record was again maintained when the 1933 results of the departmental examinations appeared in July, a tribute to the efforts of the teaching staff under the principalship of Miss Joan M. V. Foster, M.A., and to the dual advantage of limited enrolment and small classes, with consequent individual attention to the pupils.

The school was established in September, 1929, under the auspices of the United Church of Canada, starting with one building, the home of the late Sir James Aikins, bequeathed to the church for the purpose of giving western Canada a more cultural institution to fill a special need in a growing population. The following year a new building, to be used as a main school, was erected and the present group of three imposing structures includes also the former residence of Col. G. H. Aikins, K.C., a son of the original donor.

Regularly inspected by the department of education, the school has faced scrutiny with a proud record, its student body, fully aware of the significance of establishing tradition for their Alma Mater.

Riverbend begins the fall term with a teaching staff of fourteen, with Miss Foster again as principal and in-charge in history. All holding academic standing of a high order and with tested teaching experience, the members of the staff are specialists in pursuits devoted to the educational and aesthetic development of the cultured Canadian womanhood. Preventing Barn Fires

Adequate Use Of Salt Retards and Prevents Spontaneous Combustion

The Ontario Fire Marshals' records show that more barns are destroyed by fire originating from spontaneous combustion in barn than any other cause except lightning in un-roofed barns.

Harvest weather conditions in 1932 were so dangerous that more barn fires than ever were expected. Instead there were 278 fewer barns burned in Ontario and a decrease of 17 per cent. in the number of fires known to be caused by spontaneous combustion.

Credit for this is given to the more general use of salt. The adequate use of salt is the most certain way of retarding and preventing spontaneous ignition fires.

Sweden is buying more American low-priced passenger automobiles than in 1932.

Australia's wool clip is estimated at 2,942,500 pounds.

Danger Spots For Pedestrians

Five Are Listed For Guidance Of Careless Walker

Five principal danger spots lurk in traffic for the unwary pedestrian, according to an analysis of accident reports. A large proportion of traffic deaths involve persons on foot and the circumstances, listed in the order of their frequency, are: Crossing the street between intersections; crossing at intersections; coming into the street from behind parked cars; walking on or along rural highways, particularly when falling to walking facing oncoming traffic; and children playing in the street.

The value for duty purposes on cantaloupes, muskmelons, honey balls, casabas and honey dews, from August four cents per pound, an announcement of the Department of National Revenue says. This valuation applies to these fruits entering Canada under the intermediate or general tariff.

Duty On Melons

The value for duty purposes on cantaloupes, muskmelons, honey balls, casabas and honey dews, from August four cents per pound, an announcement of the Department of National Revenue says. This valuation applies to these fruits entering Canada under the intermediate or general tariff.

Canada's Hospitals

How well equipped the great majority of Canadian hospitals are is proved by the fact that out of the 893 given as the total, no fewer than 148 maintain their own X-ray departments, while 324 have their own clinical laboratories and 218 their physical therapy departments.

John Dwyer, who died recently in Thurles, Irish Free State, aged 90, was blind from early youth, but, despite the fact that he was blind, he could repair watches and clocks.

Egypt's imports of leather have declined 80 per cent. in the last four years.

SUNDAY SCHOOL LESSON

AUGUST 13

HANNAH

Golden Text: "A woman that feared Jehovah, she shall be praised."—Proverbs 31:30.

Lesson: 1 Samuel, Chapters 1, 2.
Devotional Reading: Psalm 128.

Explanations and Comments
Hannah's Prayer For a Son, Chapter 1:9-11.—Hannah and Elkanah, her husband, went regularly every year to the sanctuary at Shiloh, there to worship and offer sacrifice at one of the great religious feasts, probably the Feast of Ingathering, or Feast of Tabernacles, which was held after the grape and olive harvest. The sanctuary was the tabernacle. The temple was not built until about a hundred years afterwards.

As was customary, after a portion of the sacrificial victim was burnt at the altar, and another portion had been given the priests, the family partook of the rest within the sanctuary precincts. But Hannah could not eat, for sad and bitter thoughts filled her mind as she contrasted her childless lot with that of Peninnah, Elkanah's other wife, who was blessed with many children. After the meal was over she presented herself in the temple to pray to Jehovah. Her prayer was accompanied by many tears as, standing with her face toward the ark, she made her vow that if Jehovah would bless her with a boy, she would consecrate him all the days of his life to Jehovah.

"Hannah prayed for a child from God, that she might give him back to God. Praying for gifts that we may give them back to God has in it a high and noble motive. Do you pray for money that you may give it back to God? If so, wealth will never be your ruin. Do you pray for success in your life-work, that you may lay it at the feet of Jesus? If so, the largest possible success will be a blessing."—A. C. Dixon.

Hannah also declared that the child should be a Nazirite, one set apart to the Lord, of which his unshaven head was a token. The characteristic marks of the Nazirites were the refraining from wine and all intoxicating drinks, the letting the hair grow, and the avoidance of defilement by corpses.

"Every child in a true Christian home is a dedicated child. He is committed to God's service in so far as one person can commit another. His name is written in the Book of Life, in pencil it is true, which may be rubbed out. Still, his name has been entered. He is nominated for the heavenly citizenship and is being trained for it."—R. C. Gillie.

Prompt and Efficient

Member Of Detroit Automobile Club Tells Good Story

Depression or no depression, some American organizations continue to give prompt and efficient service. Take the case of the Detroit Automobile Club. A friend of ours who is a member of it thus writes:

"I had a little car smash recently, and presently received a letter from two lawyers demanding that I pay \$225 for damages to the other car. As I felt the accident was not my fault, I sent the letter to the automobile club, and the next day both lawyers were struck by lightning. Personally, I think that is carrying things too far, but I suppose the automobile club knows what it is doing."—London Advertiser.

Music That Endures

Old Composers' Work Outlasts Modern Song Hits

The mechanization of music has reduced a song hit's popularity to about three months, a society of composers and publishers complains. So the old order changeth. A composer's problem used to be to get a hearing for his song. Now he has to figure out a way to prevent it from being heard too much.

Still, those three B's—Bach, Beethoven and Brahms—seem to gain something more than contempt from the familiarity offered by the radio. It's the writers of blues that are blue.—Christian Science Monitor.

Cannot Be Classified

Two fishermen have caught a marine monster that defies classification at Tacoma, Washington. The strange creature has the head and body of a reptile and the gills and fins of a fish. Powerful jaws enclose fangs nearly an inch long. The body is large and muscular for about 18 inches behind the head, then tapers off rapidly into a dark, scaleless, reptile-like tail five feet in length.

Source Of Supply
Teacher—"What are the products of the West Indies?"
Boy—"I don't know."
Teacher—"Come! Where do you get sugar from?"
Boy—"We borrow it from next door."

By Ruth Rogers

Style No. 479 is designed in sizes 36, 38, 40, 42, 44 and 46 inches bust. Size 36 requires 2 1/2 yards of 39-inch material with 1 1/2 yards of 39-inch contrasting.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Miss Margaret MacDonald returned home on Monday, Aug. 7, from Coal Valley, where she had been visiting with her sister, Mrs. W. Whitaker.

Rev. and Mrs. A. S. Partington and children left on Monday for two weeks' holidays at Nelson, B.C. There will be no services at St. Alban's Coleman, and St. Luke's, Blairmore, Sunday, Aug. 12th.

Personal and Local

Several Coleman people left for Vancouver on Wednesday to spend two weeks' holidays, including Mr. and Mrs. Wilfrid Dutil, Mr. W. Machin, Mr. and Mrs. W. Gate and family, who are journeying out in a party in two cars; Fred Autubus, George Hope and E. V. Pest, making a merry party of three wise men out to get all the fun of the bright lights and to enjoy the breezes of the Pacific coast. Doubtless their wives cautioned them as they bid them good bye not to forget they were married.

Major Harcourt, Royal Canadian Engineers, and Major Murray, medical officer of Military District No. 10, visited the airport camp on Sunday afternoon on their way to Nelson to meet General Matthews, who is making a tour of inspection of the relief camps under his jurisdiction. He will visit the local airport next week.

17 single men from Edmonton and five from Calgary were added to the strength of the government camp at Project 58 on Monday. A brother of Frank Barringham came in charge of the party en route. On meeting Frank here, the latter failed to recognize him, he having changed greatly in appearance since they last met several years ago.

Mr. J. W. Glenwright, general manager of the Commercial Life Assurance Co. of Edmonton, with his wife and family, passed through town on Tuesday, en route Spokane, to spend a few days vacation. They spent a short time here with Mr. Dwight Hulbert, who with Mrs. Hulbert has been spending the summer in the Pass towns writing business for the company.

George Nies and family of Calgary are spending ten days at the lake, guests of Mr. and Mrs. Dwight Hulbert. "Kum a gen" and "Dunwurkin" are names of the cottages they are occupying.

Miss Ann Yuill is spending part of her vacation at The Century of Progress exposition, and several of her friends received souvenir cards from her this week.

Mrs. Norman Shaw of Calgary and family are visiting her parents, Mr. and Mrs. K. Apponen, East Coleman.

The Misses Mildred and Margaret Morris of Lethbridge are visiting their cousin, Miss Edna Morris, of West Coleman.

Marie and Virginia Olson of Midnapore are visiting friends in town.

A Good Opportunity

Attention is called to the advertisement announcing the sale of Paradise design Community Plate at G. R. Powell's jewelry store. It will interest you to look over the list and make your purchases as early as possible, for there will be no extension when the present stock is sold, which is going quickly at half the regular price of this high class silverware.

Wiley Post demonstrated vision. He set himself an unusual job and did it. His flying has always been a challenge to flight surgeons, who claim that two perfect eyes are needed in flying. And now, more than ever, Wiley Post stands as a challenger of physical limitations. His latest flight becomes an example for all who carry on when buffeted by head winds and hampered by physical handicaps.—Christian Science Monitor.

Mrs. A. Cornett returned recently from Vancouver, where she had been visiting at her brother's home. She was accompanied by her brother and his wife, who spent a few days here.

Mr. and Mrs. A. F. Ferguson, of Vernon, staged a dance in the Opera house Wednesday evening, following a demonstration of the magnet by Valjean. Mr. Ferguson has promoted carnivals and other money raising events for local organizations in Canadian cities and towns, in which he is ably assisted by his wife.

Mrs. Beatrice Jackson of Coleman received minor scalp wounds in a car collision on the Nelson Bal four highway, reports the Nelson Daily News. The car was driven by William Fairbrother of Corbin, and it went over the bank. He was charged with driving to the common danger and fined \$10 and costs, which was paid.

Make it a point to buy from stores which advertise good merchandise at fair prices. The merchant who advertises his goods and prices not only invites your trade, but he also gives everyone a square deal in quoting one price to all. Make it the rule to buy Journal advertised goods for satisfaction.

Lorne E. Campbell, president of McGillivray Creek Coal Co. was here last week for a conference with representatives of a machinery company in Manchester, England, which manufactures coal-cleaning equipment for mines in all parts of the world.

A. Sapeta will open a new bowling alley at the pool room next to the Grand Union hotel on Saturday afternoon.

ANNOUNCEMENT

Dr. A. E. Shore, of Drs. Gunn, Hackney & Shore, Calgary, will be at the office of Dr. R. F. Stewart, Blairmore, Saturday Afternoon, August 19. Anyone wishing to consult him with regard to eye, ear, nose or throat or to be fitted with glasses, please make appointment with Dr. Stewart.

ANNOUNCEMENT

Mr. Melville Anderson of Anderson & McLean, sight specialists, Calgary, announces his next visit. To G. R. Powell's, Coleman, on

Tuesday, August 29

20 years' experience and regular visits assure you of satisfaction in all optical work.
